

# MUTCD Standard Highway Signs End User License Agreement

## IMPORTANT:

READ THIS LICENSE AGREEMENT BEFORE INSTALLING SOFTWARE

## NOTICE:

BY OPENING AND INSTALLING THE SIGN SOFTWARE YOU AGREE TO ACCEPT ALL THE TERMS AND CONDITIONS SET FORTH IN THIS END USER LICENSE AGREEMENT. If you do not agree with the terms and conditions of the "End User License Agreement", return this package to DGI Technologies Corporation ("DGI") or the location where you obtained it.

The enclosed package contains sign software ("Software"), including but not limited to, sign metrics, mathematical algorithms, control points and vertices ("Sign Outlines"), and rasterized bitmap sign images ("Sign Bitmaps"). These components, documentation (if any), upgrades, updates, and all additions shall constitute the sign software ("Software") which is licensed to you nonexclusively by DGI. DGI grants you this license to use the "Software" provided you agree to the following:

### 1. Usage.

The permitted number of computers ("Permitted Number of Computers") on which the MUTCD Standard Highway Signs sign software ("Software") may be installed is limited to a maximum of one (1) primary computer and one (1) backup computer at a single location. The software may not be installed on a local area network server(s) ("LAN Server") unless licenses for each workstation with access to the sign software installed on the server have been purchased from DGI. DGI does not permit the sign software to be installed on wide area network server(s) ("WAN Server") without audited user access. Please contact DGI if you require a wide area network installation. The maximum permitted number of computers is an aggregate, and therefore independent of the operating system used to access the sign software. If you have contracted with DGI to license the software on more than one (1) primary computer and one (1) backup computer, this will be indicated in section six (6), "Extended License Agreement". DGI prohibits the copying of the sign software, other than making the single backup copy, provided this copy is not used concurrently with the primary licensed computer. DGI prohibits distribution of the sign software to service bureaus, or any locations or third parties (including inter-office transfers) unless they have purchased sign software licenses directly from DGI or its agents. DGI prohibits modifying the sign software for use in other operating environments or for the purpose of unauthorized duplication or for uses other than deemed acceptable by DGI. Users may modify individual sign components for their own private use. Modification of sign components does not grant any license to sell or share with any parties the modified components. Users may share modified components with other licensed users of the MUTCD Standard Highway Signs software. Modification of components of the sign software does not grant you any intellectual property rights to the software. For uses not covered in the usage section, contact DGI Technologies Corporation ("DGI").

### 2. Trademark and Copyright.

The MUTCD Standard Highway Signs software ("Software") is copyrighted and Trademarked material. The sign software, outlines, metrics and control vertices and any associated code are owned by DGI. The sign software is also protected by United States and International Copyright and Trademark Laws and International Treaty provisions. You may not copy the sign software or associated materials, except as set forth in the "Usage" section. Any and all copies that you are licensed to make are also DGI copyrighted and trademarked materials. DGI prohibits any alterations to the sign software outlines, metrics and any associated code except as set forth in the "Usage" section. Extraction of sign outlines from the sign software for any reason other than authorized use, public or private, is strictly prohibited and an infringement of copyright. Use of the Trademark other than by DGI or its authorized agents is an infringement of trademark. The MUTCD Standard Highway Signs End User License Agreement does not grant you any intellectual property rights to the software.

### 3. Transfer.

DGI prohibits renting, leasing, sublicensing or lending the sign software. You may transfer your usage rights for the sign software to another person or legal entity provided that you transfer the MUTCD Standard Highway Signs End User License Agreement, the sign software, including all copies, updates, and prior versions to the purchasing party and that you retain no copies, including copies stored on any computers or storage media. Modified MUTCD Standard Highway Signs software may not be transferred.

### 4. Limited Warranty.

DGI warrants to you that the sign software will perform in accordance with standards outlined by DGI for a thirty (30) day period following your receipt of the sign software. The current usage standard as outlined by DGI is that all sign metrics designed for use in the sign software shall be accessible to users of any computer platform for which the sign software is supplied, provided they are installed in accordance with accepted practice as outlined in the applicable operating system user manual. This warranty does not apply to modified sign software or any of its components. To make a warranty claim, you must return the sign software to DGI or its agents with your invoice/sales receipt within the thirty (30) day period. If the sign software does not perform in accordance with standards outlined by DGI, the entire and exclusive liability and remedy shall be limited to either, at DGI's option, the replacement of the sign software or modification of the sign software to accommodate the user's requirements. DGI AND ITS AGENTS DO NOT WARRANT THE PERFORMANCE OR RESULTS YOU MAY OBTAIN BY USING THE SIGN SOFTWARE. THE ABOVEMENTIONED STATES THE SOLE AND EXCLUSIVE REMEDIES FOR DGI'S OR ITS AGENTS BREACH OF WARRANTY. EXCEPT FOR THE LIMITED WARRANTY, DGI AND ITS ASSOCIATES MAKE NO WARRANTIES, EXPRESS OR IMPLIED, AS TO NON-INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY, OR FITNESS FOR ANY PARTICULAR PURPOSE. IN NO EVENT WILL DGI OR ITS AGENTS BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR SAVINGS, EVEN IF DGI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY THIRD PARTY. Some US States and jurisdictions do not permit the exclusion or limitation of incidental, consequential or special damages, or the exclusion of implied warranties or limitations on how long an implied warranty may last, so the above limitations may not apply to you. To the extent permissible, any implied warranties are limited to thirty (30) days. This warranty gives you specific legal rights. You may have other rights which vary from State to State or jurisdiction to jurisdiction. For detailed warranty information, please contact DGI Technologies Corporation ("DGI").

### 5. U.S.A. Government End Users.

As outlined, were applicable, in 48 C.F.R. §12.212 or 48 C.F.R. §227.7202, the sign software is a "Commercial Item," as that term is defined at 48 C.F.R. §2.101, consisting of "Commercial Computer Software" and "Commercial Computer Software Documentation". Consistent with 48 C.F.R. §12.212 or 48 C.F.R. §§227.7202-1 through 227.7202-4, as applicable, the Commercial Computer Software and Commercial Computer Software Documentation are being licensed to U.S.A. Government end users only as Commercial Items and with only those rights as are granted to all other End Users pursuant to the terms and conditions of the MUTCD Standard Highway Signs End User License Agreement. Unpublished-rights reserved under the copyright laws of the United States of America.
